

HandlePlus 324gsm

+ ergonomic charger

mobile phone

Doro HandlePlus 324gsm is probably the simplest mobile phone you will find. Receive calls and easily dial any of 5 programmed numbers with the push of a button, even when away from home.

Built-in speaker phone, large buttons, headset and neck lanyard provide very convenient wear and operation.

The easy to use charger is a convenient alternative to handling small cables. Just press your Handle-Plus 324gsm phone into the cradle to charge. To disconnect, simply press the large release button.
